

# Call for Papers: Special Issue on Personalized Nanomedicine

## Critical Reviews™ in BIOMEDICAL ENGINEERING

H-Index: 46

**Guest Editors:** Dr. Madhavan Nair, [nairm@fiu.edu](mailto:nairm@fiu.edu);  
Dr. Asahi Tomitaka, [atomitak@fiu.edu](mailto:atomitak@fiu.edu)

**Submission Deadline:**  
**February 20, 2020**

Thank you very much for submitting an abstract to present at The 6th Personalized NanoMedicine Symposium (2019 SPNM). The conference organizers wish to share with you the opportunity for publication in a Special Issue of the journal **Critical Reviews™ in Biomedical Engineering (CRB)**.

Authors whose abstracts have been accepted for presentation at 2019 SPNM are invited to submit a review article, full-length manuscript, or a short communication for consideration of publication in a special issue of the journal.

CRB, in publication since 1972, sets the standard for original research and review articles of Biomedical Engineering, Engineering medicine, Biophysics, and Applied Biotechnology. The mission of CRB is to facilitate communication among engineers, academic researchers, and clinicians that will translate into new research opportunities and technological discoveries. The journal highlights the most important and timely developments in the broad disciplinary innovative research areas including, but are not limited, to the following: biomedical devices, nanomedicine, biomedical imaging, biomaterials, bioelectronics and biomechanics, biomedical modeling and computing, cell/tissue engineering, synthetic biology, biomedical artificial intelligent, cardiovascular engineering, therapeutic and diagnostic technology, neuron engineering,

nanobiotechnology, computational and experimental clinical studies, and other emerging topics in biomedical engineering.

CRB is abstracted and indexed in Emerging Sources Citation Index (ESCI), Chemical Abstracts Service, Scopus, EBSCOhost, Thomson-Gale, ProQuest, PubMed, Web of Science, and SwetsWise.

To enable us to deal with the manuscripts as quickly and efficiently as possible, you are kindly invited to submit your manuscript via the journal's online submission and reviewing system.

Author instructions for registering and submitting a manuscript are available at <https://submission.begellhouse.com/help/hub.html>.

When submitting your article, please be sure to choose the option to **"Submit to special issue"** and pick the issue titled **"Special Issue: Personalized Nanomedicine."**

All contributions to the special issue will be fully refereed according to the usual standards of the journal.

If you experience any technical problems or have any technical questions during the submission process, please contact: [journals@begellhouse.com](mailto:journals@begellhouse.com).
